## CASTLE POINT BOROUGH COUNCIL WITH ESSEX COUNTY COUNCIL LOCAL HIGHWAY PANEL – 28<sup>th</sup> June 2018 REPORT 1 – APPROVED SCHEMES UPDATE

The following report provides an update on the current position of all of the schemes which the Castle Point Local Highway Panel (LHP) had recommended for inclusion in the 2018/19 Works Programme.

The Approved Works Programme is shown in two parts, firstly those schemes for delivery within the 2018/19 financial year and secondly those schemes which are within the rolling programme for future delivery.

The scheme finish dates have been allocated financial year quarters until such a time that we have an accurate month for delivery and the road space has been booked, whereupon the month can be shown.

For the information of the Panel our Safer Roads team have identified 4 Safer Roads schemes within the Castle Point Borough which need to be delivered in 2018/19.

Members are also reminded that the costs supplied are estimates only and there is the possibility that a final scheme cost could change significantly dependant on issues which may arise especially during detailed design and construction. The estimated scheme costs on the Rolling Programme/Potential Scheme List have been reviewed and adjusted as necessary to reflect this.

## CASTLE POINT BOROUGH COUNCIL WITH ESSEX COUNTY COUNCIL LOCAL HIGHWAY PANEL – 28<sup>th</sup> JUNE 2018 REPORT 2 – POTENTIAL CAPITAL SCHEMES

At the March Panel, the Castle Point Members fully committed the budget for the 2018-19 financial year.

The following potential scheme list therefore identifies all of the scheme requests which have been received for the future consideration of the Castle Point Local Highways Panel. The Members are asked to review these schemes, and remove any schemes the Panel would not wish to consider for future funding.

The breakdown of scheme types available for future consideration is as below:

| Scheme Type          | Total Estimated Costs |
|----------------------|-----------------------|
| Traffic Management   | £0                    |
| Walking              | £15,500               |
| Passenger Transport  | £153,000              |
| Cycling              | £0                    |
| Public Rights of Way | 0                     |
| <b>Total</b>         | <b>£168,500</b>       |

The RAG column acknowledges what the status of the request is as follows:

|          |   |
|----------|---|
| <b>G</b> | The scheme has been validated as being feasible and is available for consideration  |
| <b>A</b> | The scheme has previously been approved for a feasibility study and the results are awaited before the scheme can be fully considered |
| <b>R</b> | A scheme request has been received but is against ECC policy or there is no appropriate engineering solution                          |
| <b>V</b> | A scheme request has been received and is in the initial validation process   |

| 1   | Link Road Canvey-Crossing          | Request for some kind of crossing/pedestrian refuge and reduce speed signage | Concerns of pedestrian safety due to speed of vehicles, crossing the road on Link Road Canvey Island between First Avenue and the 2 bus stops. Particularly as there is sheltered accommodation in the vicinity and the elderly residents that use the bus service  | Canvey Island |              | LCAS173004 | TBC            | In validation.   | V   |
| 2   | Baardwyk Avenue Canvey - foot path | Request for traffic calming and footway outside no 2 Baardwyk Avenue         | Resident of No 2 Baardwyk avenue has had 3 cars in 18 months come through her garden and house causing damage to her property. The resident is in a wheel chair and is scared to come out of her house as there is no footpath she has to go straight into the road | Canvey Island | Total scheme | LCAS173005 | £15,500        | The validation noted the presence of chamber covers and a BT pole would suggest that underground services are likely. A C2 stats request will be required to establish exact locations. It is unlikely however, that this would impact too heavily on the installation of a new footway. Suggest that a Design Only scheme is progressed to ensure that Stats, drainage and street lighting does not pose any problems. Cost certainty can then be provided in the form of a target cost for installing the footway. | G   |
