

Dear Resident / Business Owner

Harlow Sustainable Transport Corridor: Burnt Mill Road

Road Closure: Burnt Mill Road

On behalf of Essex County Council, Bouygues UK Ltd are undertaking essential works on Burnt Mill Road as part of the Harlow Sustainable Transport Corridor project.

As a result of these works, a road closure will take place on the eastern end of Burnt Mill Road, at the junction of Elizabeth Way.

This closure will begin at 8am on Monday 27th October, with Burnt Mill Road remaining closed until 5pm on Friday 31st October 2025.

The road closure on Burnt Mill Road is needed to carry out civils works, including kerb and duct installation, while ensuring public and workforce safety. Please note that these works are weather dependent, and dates may change subject to weather conditions.

Due to the nature of this work, there will unfortunately be no access for vehicles, including the emergency services, during this closure period. However, there will be a clearly signed diversion route throughout this closure, with a map detailing the closure location and diversion route detailed below.

A certain amount of inconvenience is inevitable with work of this type, and we greatly appreciate your patience whilst these works are being undertaken. Unfortunately, this work will unavoidably create some noise, and we sincerely apologise for any disturbance caused. We wish to assure you that we will undertake these works as efficiently and quickly as possible.

For further information, updates relating to this closure, and to check on any future closures and works taking place during the project, please refer to the following:
