Item:	Action:	Action Owner:
1.	Welcome and Introductions Cllr Bobbin welcomed everyone to the meeting.	
2.	Declarations of Interest In Councillor Buckley’s absence WP advised that there was one Potential scheme on the road on which he lives.	
3.	Minutes of meeting held on 14th Jan 2016 and matters arising Councillor Bobbin led the Panel through the previous meeting’s minutes. The Panel confirmed that these were a correct record of the meeting.	
4.	Approved Schemes List 2016/2017 LBAS152002- Kennel Lane, Billericay, Weight Restriction WP noted Cllr Twitchen’s comments that this scheme needed to be finished without delay. LBAS152027- District Wide 20mph Designs Cllr Smith asked whether the listed schemes included the implementation of the work and also when the design work would be completed. WP explained that the costs were only for the design of the schemes and that the delivery could be commissioned at the Panel’s	

request once designs were complete. WP anticipated that he would be able to supply designs and estimated costs for delivery at the March meeting.

LBAS155008 and LBAS155011- Noak Hill Road, Billericay, Laindon
Common bus stops LOCATION CHANGED TO MILL RD JUNCT
GRANGE RD

WP explained that there had been objections to the Mill Rd bus shelters, with some residents claiming that they would be an eye sore and would lower house prices. WP informed the Panel that this scheme still had the support of Cllr Twitchen. Cllr Hedley and the rest of the Panel also confirmed their support and requested that the shelters be installed.

LBAS161005- CR Site 51- Ballards Walk Zebra Crossing North of Great Knightleys, Basildon

WP informed the Panel that this scheme could not be delivered without a further £20,000 of funding. There was a long discussion during which the Panel voiced their concern at the size of the top up. WP advised that the road safety delivery schemes had been commissioned prior to completion of designs. For that reason he told the Panel that the estimated costs were far harder to predict at the time of commission than they would be in normal circumstances. He also gave examples of specific areas of the scheme that had transpired to be particularly costly, namely the need to install an extended length of buff anti-skid surfacing, the need to install a 'camouflaged' utility cover in an area of tactile paving, the need to install dropped kerbs in the vicinity of the scheme, and the need for an overnight road closure. The Panel took these reasons on board but still felt that the top up was excessive and disproportionate to the original scheme value of £14,500. Cllr Ellis suggested that there may be some S106 funding that can be used to fund the scheme top up. WP told the Panel he would explore this possibility before seeking sign off for the top up. **A top up of £20,000 was approved if no S106 funding was available.**

Cllr Ferguson raised an additional query re the need to slow traffic on Ballards Walk. There was some discussion on the subject and WP asked that any further improvement suggestions be submitted on a scheme request form.

	<p>LBAS161007- CR Site 67- Hatterill junction with Gower Chase, Laindon Panel agreed top up of £1750.</p> <p>LBAS162042- Moss Drive junction with Moss Close, Vange Cllr Smith asked when this scheme will be completed. WP explained that it is a 17/18 scheme.</p> <p>LBAS162058- Mandeville Way/ Florence Way Roundabout, Langdon Hills Cllr Smith and WP discussed the reasoning behind this scheme. WP and Cllr Smith arranged to visit the site together. Cllr Ellis and Cllr Ferguson also requested site visits which WP said he would be happy to arrange.</p>	<p>WP</p>
<p>5.</p>	<p><u>Potential Schemes List</u></p> <p><u>Budget Update</u> WP gave an account of the 2017/18 budget situation, as summarised on p12 of the reports.</p> <p>Safer Roads The Panel started by discussing the following schemes:</p> <p>LBAS171001 – 2 x 7 day video surveys at A127 Pedestrian Casualty Sites</p> <p>LBAS 171002 – Design of “Fatal Collision Site, Do Not Cross” signs and “Other Danger Ahead” warning signs between A132 Nevendon Interchange and A130/A1245</p> <p>LBAS 171003 – Feasibility Study into the provision of a pedestrian over-bridge between Hoverfields and Cranfield Park Road/Pound Lane and/or the extension of the 50mph limit further west to the junction with A132 Nevendon Interchange</p> <p>WP explained that Essex Highways were obliged to undertake fatal collision analysis and that these measures were either an extension or the outcome of that analysis. WP explained that the Panel was responsible for funding studies alike LBAS 171003 even if the outcome of that study was likely to be a major scheme.</p>	

	<p>LBAS 171001 and LBAS171002 - Approved by majority of Panel (rejected by Cllr Smith)</p> <p>LBAS 171003 – Unanimously rejected by the Panel</p> <p>Councillor Ferguson asked why the Panel were not given the option of high sided fencing in the central reservation. WP to ask road safety and feedback.</p> <p>LBAS171004- Broadmayne junction with Upper Mayne, Basildon – unanimously approved by the Panel</p> <p>Traffic Management</p> <p>LBAS172015- Church Road, Ramsden Bellhouse</p> <p>LBAS172029- Church Road j/w London Road, Wickford.</p> <p>Schemes not discussed as Wickford members were not present.</p> <p>LBAS172044- Adjacent to Wickford Cof E Infant School and LBAS172045- London Road, Wickford close to No 63</p> <p>Cllr Howard questioned the reduced cost of signalised crossing. WP explained that this is due to the design being funded separately.</p> <p>LBAS172010- Noak Hill Road outside Billericay School</p> <p>WP confirmed that ECC were unable to sell/pass land over to BBC to be maintained as a car park for legal reasons. Cllr Hedley suggested looking into other measures to improve the congestion in this area. WP and SC to attend a site visit with Cllr Hedley.</p> <p>LBAS172001- Highview Avenue, Basildon</p> <p>Cllr Smith queried why the cost of lighting the existing sign was so high. WP explained that the signs would need to be connected by UKPN and cost would depend on distance to electrical connections etc. The Panel confirmed that they would like to opt for option 2 and simply replace the existing sign with a larger replacement which met reflectorized standards.</p> <p>Panel Unanimously agreed funding for option 2.</p>	<p>WP</p> <p>WP & SC</p>
--	---	------------------------------

	<p>shelters. WP to explore all alternative funding options before the March Panel meeting.</p> <p>LBAS175010- Mill Road close to junct with Grange Rd, Billericay WP explained that this scheme was a duplication of the scheme already on the Approved Works Programme. WP to remove scheme from the Potential Schemes List.</p> <p>Walking</p> <p>LBAS173001- Pound Lane, Basildon WP reminded the Panel that they had chosen to not fund this scheme in 16/17 and asked if they wished to fund the scheme in the 2017/18 programme. The Panel still did not wish to allocate funding to this scheme.</p> <p>LBAS172013- Westmede, Langdon Hills – funding approved</p> <p>LBAS173002- Underpass between Luncies Road and Chalvedon estate, Pitsea Cllr Bobbin asked how this was progressing. WP said that he had visited the site with the validating engineer and they didn't feel as though bollards would necessarily be effective. However, the validation was not yet complete. Further info to be provided at next meeting.</p> <p>PROW Panel Unanimously agreed not to fund the PROW schemes.</p>	
6.	<p>S106 WP explained to the panel that the S106 schemes listed were outside the remit of the LHP, but that the info was provided for their reference.</p>	
7.	<p>A.O.B. WP brought the Members Guide and the Terms of Reference to the - Panel Member's attention and explained that these documents could be found on the Essex County Council Website.</p> <p>Cllr Ferguson discussed his concerns surrounding air pollution. He suggested that the removal of bus lanes and no right turn/no left turn</p>	

	<p>junctions would decrease journey times and reduce air pollution throughout the Borough. SC and WP explained that this really fell into the category of a Transport, Strategy and Engagement scheme. SC and WP said they would speak to Cllr Ferguson after the meeting to discuss how he could look to progress his proposals.</p> <p>Basildon LHP closed 3:20pm</p>	
	<p>Date of Next Meeting</p> <p>21st March, Committee Room 5, 2pm.</p>	

BASILDON LOCAL HIGHWAY PANEL – 21st MARCH 2017 REPORT 1 – APPROVED SCHEME LIST & PROPOSED 17/18 PROGRAMME

Budget Summary

It has been confirmed that the Basildon LHP budget for 2017/18 will remain £500,000. However, the Panel will be obliged to allocate £212,000 to Casualty Reduction sites identified by the Road Safety team and approved by Councillor Johnson.

It is recommended that schemes to the value of 140% of the budget are commissioned in 17/18 so to form a rolling programme. This 140% will include previously commissioned works which have been scheduled for delivery in 2017-18.

2017-18 Basildon Budget summary	
Capital Budget	£500,000
Rolling Programme (140%)	£700,000
Schemes Re-Profiled from 2016-17	£267,217
Casualty Reduction Sites	£212,000
Budget Available for New Commissions	£220,783

Please note we can only deliver schemes to the value of 100% of Basildon's budget each financial year. The remaining 40% will be 'reserve schemes' which can be brought into the 17/18 programme if there are sufficient savings elsewhere.

BASILDON LOCAL HIGHWAY PANEL – 21st MARCH 2017 REPORT 2 – POTENTIAL SCHEMES 17/18

RAG

The following list identifies all of the scheme requests which have fed into the Basildon LHP which do not feature in the proposed 17/18 programme. Please note that costs shown are estimates only. The RAG (Red Amber Green) column acknowledges the status of the request as follows:

= The scheme has been validated as being feasible and is available for consideration.

= The scheme has a design or feasibility study pending and therefore cannot yet be considered.

= The scheme request is against ECC criteria.

= A scheme request has been received and is in the initial validation process.

1	Church Rd, Ramsden Bellhouse	AMENDED SCHEME - Detailed design of extended footway and transformation of build out into ped refuge	Cllr Buckley and Ramsden Bellhouse P.C.	Traffic Management	Total scheme	LBAS172015	£5,000	Previously circulated feasibility study showed that build out cannot be moved, and therefore that footway should be extended. This necessitates moving of lamp column (which may not be possible) and stats investigation. Detailed design therefore required.	G
2	Adjacent to Wickford Cof E Infant School	Delivery of signalised crossing	Cllr Le Gresley	Traffic Management	Implementation	LBAS172044	£110,000	Surveys complete, awaiting detailed designs.	A
3	London Road, Wickford close to no 63	Delivery of signalised crossing	Cllr Le Gresley	Traffic Management	Implementation	LBAS172045	£110,000	Detailed designs not to be completed until 17/18.	A
4	Noak Hill Road outside Billericay School	Detailed design of parallel parking arrangement outlined in option 3 of feasibility study. To include traffic survey assessing the number of spaces required, and all other forms of survey work, utility liaison, land negotiation etc necessary to enable delivery in 17/18.	Cllr Hedley	Traffic Management	Design	LBAS 172010	£8,000	Panel opted not to proceed with detailed design within the 16/17 programme due to the prohibitively high delivery cost (estimated at £362,000). WP discussed the possibility of transferring the land to BBC for them to convert and maintain as a car park, but this would necessitate the removal of highway rights which would not be possible on the A176. Still plausible as an LHP scheme if the Panel want to proceed to detailed design.	G
5	Runwell Road, Wickford	Detailed design of widened footway with detailed topographical survey as recommended in feasibility study.	Local resident endorsed by Cllr Le Gresley	Traffic Management	Design	LBAS 172020	£5,000	Panel opted not to proceed with detailed design within the 16/17 programme due to the prohibitively high delivery cost (estimated at £139,000). Possibility of scheme being placed in S106 programme. Awaiting confirmation.	G
6	Glenmere, Basildon	Installation of bollards to prevent parking on verge	Cllr Smith	Traffic Management	Total scheme	LBAS 172005	£6,000	Installation of bollards is possible but not advised as we believe cars will still park in the 450mm space at verge edge, and that bollards will become a maintenance liability.	G
7	Castledon Road	Request for speed reduction measures	Cllr Buckley	Traffic Management		LBAS 172011		Average speeds of 34.3mph to the north of the bridge and 32.9mph to the south of the bridge. This shows relatively good compliance with the speed limit. Scheme in validation.	
8	New Avenue, Basildon	"Children" Warning signs or other speed reduction measures	Cllr Smith	Traffic Management		LBAS 172024	£2,500	Awaiting Validation
