Reserve Schemes (Rolling Programme) – Approved Schemes

In light of the casualty reduction expenditure, the LHP decided to 'downgrade' the following approved schemes to a reserve status (whereby they will only be brought into the programme if savings are made elsewhere):

CR site 51 – Ballards Walk – LBAS161005 - £35,000

A130 path leading to Rushbottom Lane – LBAS162001 - £1,500

London Road Wickford (close to 63) – LBAS152026 - £25,000

CR Site 53 – London Rd, Vange Hill Drive – LBAS161006 - £7,000
(There was a discussion over the use of red anti-skid surfacing. Cllr Buckley asked when/if it was used as he understood it to be a maintenance liability. WP and SC said that we look to use high PSV surfacing rather than anti skid in the majority of circumstances now, but that anti-skid does still have a place in some schemes, particularly CR schemes).

Steeple View, Dunton – LBAS165001 - £7,000

Greenway, Billericay – LBAS165002 - £5,500

Clay Hill Road – LBAS002011 - £30,000 (WP informed the Panel that this scheme had been completed some time ago, but the stage 3 safety audit found improvements that could be made to the parking restrictions in the area. The Panel did not see this as a priority in relation to the other schemes on the list).

Twinstead, Wickford – LBAS152014 - £65,000

Mandeville Way/Florence Way roundabout – LBAS162058 - £2,000

Reserve Schemes (Rolling Programme) – New Schemes to be approved

Miles Gray Road – LBAS172022 - £15,000 (The Panel agreed that this should be privately funded)

Outside The Swan, Wickford – LBAS175001 - £20,000

Outside St Peters Primary School – LBAS 172013 - £16,000

Outside Janet Duke School – LBAS172015 - £20,770

Outside Wickford School – LBAS172017 – £7,200

	<p>Outside North Crescent School – LBAS172018 - £9,300</p> <p>Outside Greenstead School – LBAS172020 - £7,400</p> <p>Laindon Link – LBAS175003 - £7,000</p> <p>The Knares (westbound) junction with the Leysings – LBAS175006 - £7,000</p> <p>The Knares (eastbound) junction with the Leysings – LBAS175008 - £7,000</p> <p>The Knares junction with Rantree Fold – LBAS175007 - £7,000</p> <p>Southend Rd junction with Highcliffe Rd – LBAS175011 - £1200</p>	
<p>7.</p>	<p>Potential Schemes List for consideration of Panel in 2017/18:</p> <p>Mountnessing Road Railway Bridge – LBAS172027 – Cllr Twitchen confirmed that the speed survey had shown the area to be unsuitable for a 20mph restriction. WP advised he was now in the process of validating edge markings on the bridge.</p> <p>Outside 139 Noak Hill Rd – LBAS172032 – Cllr Twitchen confirmed that this site had not met the PV² criteria and therefore that it could be removed from the Potential Scheme Lists.</p>	
<p>8.</p>	<p>Appendix</p> <p><u>Highways Rangers</u></p> <p>WP informed Members of the new ranger process. He said that a ranger email address was soon to be set up where Members could directly send requests. Members voiced their unhappiness at the current standard of service and said they hoped that they would see an improvement. There was also a discussion around the kind of works that rangers can and cannot undertake.</p> <p><u>Section 106 Schemes</u></p> <p>Festival Leisure – HB16025 – Cllr Ellis asked when this would be completed. WP advised it was programmed for the first quarter of 17/18.</p> <p>Weight Limit Pound Lane – HB12022 – Bernard Foster asked what this scheme entailed. WP advised that he had asked the scheme engineer to include the Parish (including BF) within their consultation.</p>	

<p>9.</p>	<p>AOB</p> <p>Cllr Ellis advised that First Data were willing to pay for any measures outside their offices to prevent travellers. WP said he would be arranging validation ASAP.</p> <p>The Panel took the opportunity to thank Councillor Bobbin for his excellent chairmanship in light of his decision not to stand at the next election.</p>	
<p>10.</p>	<p>Date of next meeting:</p> <p>Mon 26th June, 2pm, Committee Room 4.</p>

Safer Roads	Implementation	LBAS161011	£35,000	Quarter 3	Scheme was approved by the Panel after studies showed that a roundabout or traffic lights would not be feasible. There have been 13 recorded accidents at this junction in the past 10 years including one fatal collision. Informal consultation has led to objections which are to be reviewed by the Cabinet Member. Design and target costing has also led to an increase in the required budget to £60,000. The reason for this is that the scheme will require bolt down posts in the centre of the carriageway, which will in turn necessitate carriageway widening and resurfacing with the installation of 3 new gullies and a new lamp column. This could not have been foreseen prior to detailed design.

1	Church Rd, Ramsden Bellhouse	AMENDED SCHEME - Detailed design of extended footway and transformation of build out into ped refuge.	Difficulty crossing road due to layout of traffic calming	Cllr Buckley and Ramsden Bellhouse P.C.	Traffic Management	Total scheme	LBAS172015	£5,000	Previously circulated feasibility study showed that build out cannot be moved, and therefore that footway should be extended. This necessitates moving of lamp column (which may not be possible) and stats investigation. Detailed design therefore required.	G
3	Noak Hill Road outside Billericay School	Detailed design of parallel parking arrangement outlined in option 3 of feasibility study. To include traffic survey assessing the number of spaces required, and all other forms of survey work, utility liaison, land negotiation etc necessary to enable delivery. Transfer of land to BBC as previously suggested is also not possible.	G

BASILDON LOCAL HIGHWAY PANEL – 10th JULY 2017 REPORT 4: HIGHWAYS RANGERS

The process surrounding making requests for works by the Basildon Rangers has recently changed.

In line with a uniformed process across all twelve District / Borough and City Councils in Essex all Parishes and Councillors in Essex were emailed in April 2017 outlining the new way of working.

The main amendment being that requests are to be completed on the Rangers Request form supplied in the email and returned to the dedicated LHP Rangers email address instead of submitting the request using the online portal. Requests will then be collated and submitted to the Rangers team on a monthly basis.

We will be unable to provide timescales for when specific requests will be attended to as the nature of the request and the time of year will dictate the priorities which will be assigned by the Rangers team.

The lists of requests and completion dates where appropriate will be reported back to the Panel at the quarterly LHP meetings along with all the work generated internally.

The following report identifies recent ranger requests.
