| 4. | <u>Matters arising from minutes of the previous meeting:</u> JW informed the panel that she had circulated the link to Map Essex for all members to look at and collect information independently. JW stated that she has investigated the potential for an alternative solution to protect the property from the VAS however this was not possible. JW informed the panel that she has sent them the design for Great Berry Lane and Little Berry Lane JW also stated that she has distributed the noise surveys to all panel members regarding LBAS182054 St Michaels Avenue – Acoustic Fence. | |

| | | |
|-----------|--|--|
| | <p>JW states that all remaining action have been completed.</p> <p>Cllr Reid raised her concerns regarding the implementation of bus stops. SC addressed the panel to explain that due to the new ECC procurement process we are unable to progress any shelter installations until this has been resolved. Also stated that we are hoping to have an update by the end of the financial year.</p> <p>SC also explained to the panel that bus stops could be implemented in the meantime however, these will have to be paid for by the Parishes/Towns. Who will also be responsible for the on-going maintenance of the shelters.</p> <p>SC informed Cllr Hedley that if he feels telematics are required at a particular bus stop then he should inform JW of the location so we can investigate whether it is being considered by ECC.</p> | |
| <p>5.</p> | <p><u>Presentation on 20mph schemes:</u></p> <p>SC provided the panel a brief overview on the different types of 20mph, which panel members can request through the LHP consultation process as well as informing the members of the guidance they must consider before submitting schemes.</p> <p>JW to send the presentation to all Councillors for their future reference.</p> <p>Cllr Hiller discussed with the panel issues he has occurred when dealing with 20mph zones, this being that they had to be at least 600m long. SC explained that this is the policy therefore will not be changed unless a CMA has been completed.</p> <p>Councillors strongly feel that when working on 20's Plenty's outside of school we should work closely with SEPP to ensure that all issues are resolved with collaboration. JW informed the panel when submitting the 20's Plenty's schemes, they should include any other issues such as parking.</p> <p>Cllr Hedley asks if there is another organisation that we could work with as he feels that SEPP do not get involved in schemes, and feels the service they provide is inadequate.</p> | |
| <p>6.</p> | <p><u>Report on funded schemes:</u></p> <p><u>18-19-</u> JW inform the panel that all 18-19 schemes have been completed including LBAS182012 Hornbeam Way, Noak Bridge and LBAS183015 Bretons.</p> | |

Scheme to be cancelled and budget to be reallocated to other schemes.</p> <p>LBAS181003 A176 Nethermayne BP Station, Basildon, causality reduction scheme has been cancelled as the BP station are not willing to co-operate with any scheme proposals therefore has been cancelled in the meantime.</p> | |
