The Panel noted the following from the approved works programme:

**Approved Schemes for 2017/18:**

LCAS172002 – Benfleet Station – Study to look at improving the traffic movements around the station:  
 ECC Cabinet Member action prepared due to objections received during the consultation period. Sign off by the Cabinet Member for infrastructure was awaited before the scheme could proceed. The scheme was on schedule to be implemented by the end of quarter 3. The Chairman had requested to be advised immediately once Cllr Bentley’s decision was known. Letters to be despatched to licensed drivers and public consultation to commence at that time.

LCAS166001 – Church Road (o/s Manor Auto Park), Thundersley – Replacement of existing wig wag sign:  
 Cllr Dick sought an update on this scheme. SA advised that the replacement post and wig wag sign had been installed and were awaiting connection to power supply.

LCAS162003 – Church Road outside Robert Drake School – Raised Table:  
 Formal consultation had closed on 28 September. As objections had been received in response to the informal consultation a Cabinet Member action was required for infrastructure before any works could commence. The scheme also required a budget increase of £25,000 due to permit restrictions that stipulated that these must be night works.

The panel debated the significant increase in scheme cost, and proposals for completing the works at a lower cost.

However, acknowledging the need for this scheme to proceed as soon as possible, it was agreed that the works be undertaken at night at an additional cost of £25,000.
