HARLOW DISTRICT COUNCIL WITH ESSEX COUNTY COUNCIL LOCAL HIGHWAY PANEL – 20th SEPTEMBER 2017 REPORT 2 – POTENTIAL CAPITAL SCHEMES

As the capital budget for the Harlow Highways Panel has been fully committed the potential schemes list represents all of the schemes for which future consideration can be given.

It is recommended that Councillors who wish to submit scheme requests for 2018-19 submit them before the end of October so that all of the necessary surveys and assessments can be undertaken for the scheme validations.

A comprehensive list of schemes will then be available in time for Members to consider for funding at the January Panel.

The value of the schemes currently on the potential list stands at £95,000 with further value set to be added throughout the year once feasibility studies and recent validations have been returned.

Members are reminded that the costs supplied are estimates only and there is the possibility that a final scheme cost can change significantly dependant on issues which may arise during detailed design and construction.

The following list identifies all of the scheme requests which have fed into the Harlow LHP.

The RAG column acknowledges what the status of the scheme request is as below:

G	The scheme has been validated as being feasible and is available for consideration
A	The scheme has previously been approved for a feasibility study and the results are awaited before the scheme can be fully considered
R	A scheme request has been received but is against ECC policy or there is no appropriate engineering solution
V	A scheme request has been received and is in the initial validation process

**HARLOW DISTRICT COUNCIL
WITH ESSEX COUNTY COUNCIL
LOCAL HIGHWAY PANEL – 20th SEPTEMBER 2017
REPORT 3: HIGHWAYS RANGERS**

RANGERS WORKS

The process surrounding making requests for works by the Harlow Rangers has recently changed.

In line with a uniformed process across all twelve District / Borough and City Councils in Essex all Parishes and Councillors in Essex were emailed in April 2017 outlining the new way of working.

The main amendment being that requests are to be completed on the Rangers Request form supplied in the email and returned to the dedicated LHP Rangers email address instead of submitting the request using the online portal.

Requests will then be collated and submitted to the Rangers team on a monthly basis.

We will be unable to provide timescales for when specific requests will be attended to as the nature of the request and the time of year will dictate the priorities which will be assigned by the Rangers team.

The lists of requests and completion dates where appropriate will be reported back to the Panel at the quarterly LHP meetings.

The following report identifies the Rangers requests for the months of April through to June as well as including before and after pictures of vegetation clearance on Burley Hill.
