

Dear Resident / Business Owner

## Harlow Sustainable Transport Corridor: Station Approach

### **Road Closure: Station Approach**

On behalf of Essex County Council, Bouygues UK Ltd are undertaking essential works on Station Approach as part of the Harlow Sustainable Transport Corridor project.

**As a result of these works, a road closure will take place on Station Approach in both directions between the Burnt Mill Roundabout and the Goodman House Car Park. This closure will begin at 8pm on Saturday 11<sup>th</sup> October and remain in place until 5am on Monday 13<sup>th</sup> October 2025.**

**Please Note:** There will be no vehicle access, including for buses and taxis, via Station Approach to Harlow Town Train Station, Goodman House Car Park, Field House Car Park, and the businesses located opposite Harlow Town Train Station. Pedestrian access will be maintained throughout this closure period. Motorists requiring access to Harlow Town Station Car Park can continue to do so via Edinburgh Gate.

The road closure on Station Approach is needed to carry out road reconstruction works, with a full closure needed to ensure the safety of both the public and workforce. Please note that these works are weather dependent, and dates may change subject to weather conditions.

Unfortunately, due to the nature of this work, there will be no access for vehicles during this closure period. However, access will be maintained for the emergency services in the event of an emergency. A map detailing the closure location is detailed below.

A certain amount of inconvenience is inevitable with work of this type, and we greatly appreciate your patience whilst these works are being undertaken. Unfortunately, this work will unavoidably create some noise, and we sincerely apologise for any disturbance caused. We wish to assure you that we will undertake these works as efficiently and quickly as possible.

For further information, updates relating to this closure, and to check on any future closures and works taking place during the project, please refer to the following:
