

**The Essex County Council (A1245 Chelmsford Road, Rawreth)  
(Derestriction) Order 20\*\***

**Statement of Reasons**

On behalf of Essex County Council as Highway Authority, the Safer Essex Roads Partnership has recently upgraded the camera at this location to enable it to be used to monitor and enforce the speed of traffic and any vehicles not complying with the red traffic signal at this location.

As part of the upgrade, it was identified that there is a system of street lighting in place and research could not identify a derestriction order had been applied to this length.

In order to ensure that enforcement action if taken against errant drivers is compliant with the Road Traffic Regulation Act 1984 (as amended) this section will be derestricted by virtue of the proposed order and the national speed limit will be applied.
