

**The Essex County Council (Castle Point District) (Prohibition of Waiting,
Loading and Stopping) and (On-Street Parking Places)
(Civil Enforcement Area) (Amendment No.16) Order 202***

Statement Of Reasons

Canvey Road running North of Northwick Road in Canvey Island currently operates at a speed limit of 30mph for its entire length. In conjunction with planning reference 22/0665/Ful for the proposed residential care home of 55 dwellings on Northwick Road, a new crossover was necessary to facilitate access to the new development.

The Road Safety Auditor recommended the removal of three parking bays in Canvey Road to mitigate the risk of obstructed pedestrian-to-driver intervisibility at the Access road. This measure was deemed necessary to ensure clear and compliant sightlines. No Waiting at Any Time Restrictions (double yellow lines) are proposed to enhance road safety by ensuring that there is improved visibility for both vehicle and pedestrian users. This will also facilitate the safe manoeuvrability of heavy goods vehicles (HGVs), and other vehicles entering and exiting the junction.

By preventing parking or stopping on the Access road junctions, it is hoped that these lines will improve visibility and reduce the risk of accidents. This modification will benefit all road users by creating a more consistent and controlled traffic environment and will enable larger vehicles to safely manoeuvre into / out of the junction without damaging parked vehicles or over-running the kerbs / footways at the junctions.

These alterations and improvements are being funded solely by the developer.
