

## **The Essex County Council (Leda Way, Myland) (One Way) Order 202\***

### **Statement of Reasons**

It is proposed that the flow of traffic is limited to one direction from a point at the junction with Leda Way and Lilianna Road for 170m in a north easterly direction and continuing to the east. Beyond this point two-way traffic will be permitted to allow access into the neighbourhood centre from the junction of Cordelia Drive as shown in the Colchester Borough Council approved planning drawing numbered 893 NC.L.003[A] (Application no. 173311).

The proposals include access for non-motorised users (NMUs) to a new infant and secondary school fronting Leda Way, it is intended this proposed one-way system (in conjunction with the 20mph zone TRAF/7309) will restrict the flow of traffic at the school access points. The proposal has been funded by the Developer.
