# Chelmsford North East Bypass and Beaulieu Station Newsletter

## Virtual events to launch in July

Information events were planned for May, however in response to Covid-19, we postponed all face-to-face engagement events.

We look forward to announcing our first virtual event this summer, where you will be able to find out more about the scheme, just as if you were attending in person.

The majority of staff associated with the scheme are working from home, wherever possible and adhering to government guidance. In addition to the home working, we are currently undertaking a number of site surveys.

In recent weeks we have conducted a number of environmental surveys, many of which are seasonal, so must be untaken at this time.

The environmental impact of the bypass and the required mitigations are something which must be looked at closely.

The ecologists and support team undertaking this work are doing so with the permission of landowners.

Whilst undertaking this work, strict social-distancing rules have been in place, and this will continue in line with Government advice.

We will issue further information about the virtual events soon. In the meantime, you can go to the website for more information or to see a short film.

You can visit the website and view the film at: [www.essex.gov.uk/chelmsford-north-east-bypass](http://www.essex.gov.uk/chelmsford-north-east-bypass) or scan the QR code at the top of this document to go straight there.

If you have any enquiries or comments regarding the bypass or the station plans please email: [CNEB@essexhighways.org](mailto:CNEB@essexhighways.org)
