- Emergency 24 hour Contact No:

The Installation

Proposed location of installations (street/town/street light number etc.)

Duration of installation: fromto

Appointed Contractor/Competent Person(s)

- If appointing a third party - provide contact details below:
 - Name:
 - Address:
 - Telephone:
 - Contact Email:

Is it proposed to have catenary wires stretched across the highway? **Yes/No**

Is it proposed to have any electrical connection to Highway Authority equipment (e.g. street lighting column)? **Yes/No**

- If yes, what professionally approved electrical body is the contractor a member of?

Detailed drawings and other supporting information shall be required for technical review before application can be granted – see attached checklist

The following documentation shall be submitted:

Completed Application Form and associated paperwork (**required a minimum of 10 weeks prior to installation**) including:

- Terms and conditions – signed and dated by applicant to confirm they have been read and understood.
- All technical information including the completed attachment form (hanging baskets/sign/seasonal motif), a map/plan showing the location of the installations with street light numbers, dimensions, details of each installation.
- A signed written statement or an email from the applicant stating that your contractor/third party have demonstrated to you their operative's competency and qualifications including the person/s who will complete the electrical connection and disconnection and the person/s "switching on" the installation at any ceremony.
- A signed written statement or an email from the applicant stating that all temporary traffic management proposals, arrangements for protection and segregation of the public and signing and guarding are in accordance with the latest version of Chapter 8 of the Traffic Signs Manual published by the Department of Transport (Safety at Street Works and Road Works – A Code of Practice (commonly known as the "red book")
- Proposed installation dates and final removal of the equipment, method statement and risk assessment covering installation and maintenance.
- Evidence of Public Liability insurance (£10 million).
- 24/7 emergency contact numbers; which may be used at any time and at all stages of the installation (there can be more than one contact if required).
- Details and results of any structural tests carried out, or confirmation that tests are to be carried out (providing dates of when they are to be carried out and the results will be available).
- A statement of conformity for the complete installation, in accordance with BS 7671 (test certificates to follow upon installation).
- Copy of the applicants written energy agreement.
- Application fee of £50 per application or £50 per road/street (the length of an individual street may require an additional payment) where testing will be required.
