26th June 2026

Dear Resident,

We are writing to provide an update on our works to deliver the new Fiveways Roundabout.

Following the successful completion of the north-east section of the scheme, we will shortly be moving into the next phase of construction on the south-east section, extending along Peartree Road towards Heath Road.

On 26th June, we will complete the remaining footpath surfacing to the current phase before switching the traffic management into its next arrangement. Following this traffic management switch, some minor preparatory works will commence, with the main construction works planned to begin from 29th June.

The works within this phase will include the installation of drainage and service ducts together with the construction of the new footpath before final surfacing is completed. These works form an important part of the overall roundabout scheme and will allow construction to continue towards the next phases.

To enable these works to be carried out safely, temporary traffic management will remain in place throughout this phase. Careful consideration has been given to local residents and businesses, and every effort will continue to be made to minimise disruption. However, some inconvenience will unfortunately be unavoidable while these works are undertaken.

As construction progresses past individual properties, there may be occasions where temporary restrictions to driveway access are required to safely complete elements of the works. Where possible, affected residents will be contacted in advance and provided with as much notice as reasonably practicable. Pedestrian access to properties will be maintained wherever reasonably practicable.

At Natta, we take our responsibility to local residents very seriously. We recognise that construction works can be disruptive and remain committed to keeping residents informed while continually reviewing our operations to minimise the impact wherever possible.

If you have any questions or concerns regarding these works, please do not hesitate to contact us on **01252 851155** or via email at **reception@natta.co.uk**. A member of our team will be happy to assist you.

Additional information will be shared on Essex Highway's dedicated webpage '**Mersea Homes Development – Stanway – New roundabout at Fiveways Junction**' which is accessible from www.essex.gov.uk/highwayschemes, alternatively using a QR code:

We would like to thank you for your patience and cooperation throughout these works.

Yours sincerely,

The Natta Building Team
