

# ADVANCE NOTICE:

## A414 Maldon to Chelmsford improvement scheme - Spital Road and Limebrook Way Roundabouts

Roadworks start 27 June 2016

The construction phase of the Spital Road and Limebrook Way Roundabout improvements will commence 27 June 2016. This follows preliminary works that were undertaken to divert utility services last year. The target completion date for the scheme is early 2017.

These works are part of Essex County Council's road investment programme to improve the capacity and flow of traffic on the A414 corridor from Chelmsford to Maldon.

Improvements include:

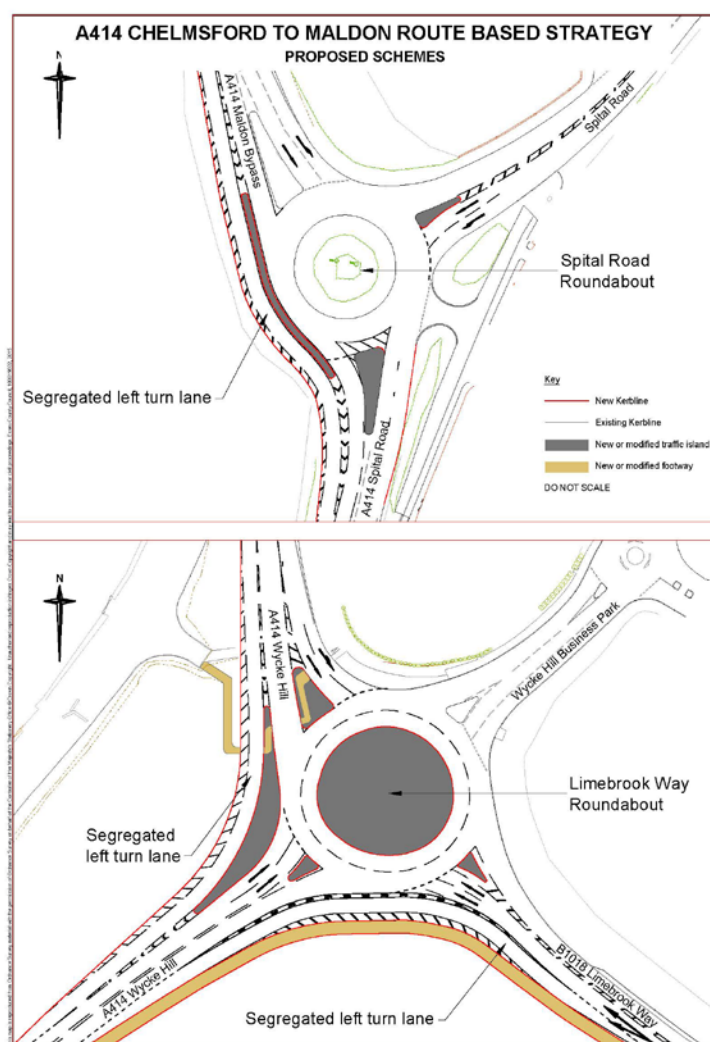

- A new dedicated left hand slip road on the A414 Spital Road Roundabout leading to the A414 Maldon Bypass towards Heybridge.
- Two new dedicated left hand slip roads on the Limebrook Way Roundabout from Limebrook Way B1018 to A414 Wycke Hill, and A414 Wycke Hill towards Spital Road.
- Improving the consistency and appropriateness of the speed limits on this section of the A414
- Upgrading the existing traffic island to a pedestrian island on A414 Spital Road.
- Adapting associated ground works, drainage, street lighting, road markings and signage.

Lane reductions and pedestrian diversions will be required between the hours of 7.00am to 7.00pm weekdays with some limited operations being undertaken overnight.

Temporary traffic signals will be used overnight and outside peak times to support the works, which will cause some delays to journey times.

Temporary speed reductions to 30mph will be in place where necessary during the works.

We thank you in advance for your patience and cooperation while we work to improve your roads. Further information about the scheme, can be found at: [www.essex.gov.uk/majorschemes](http://www.essex.gov.uk/majorschemes), alternatively email [contact@essex.gov.uk](mailto:contact@essex.gov.uk) or telephone 0345 603 7631.
