## BRENTWOOD HIGHWAY PANEL REPORT 1 - FUNDED SCHEMES LIST

This report provides an update on the final position of all schemes which the Brentwood Local Highway Panel recommended for inclusion in their 2024/25 programme.

It also details those schemes that were funded in 2024/25 through the Chairman's Panel.

<b>2024/25 Budget Summary</b>		
<b>LHP Funding</b>		
1	LHP Scheme Funding recommendations 2024/25	£91,700
2	Chairman's Panel Funded Schemes 2024/25	£267,000
	<b>Total</b>	<b>£358,700</b>

Within the programme the dates given as Quarters 1 to 4, refer to the financial year as follows –

- Q1 - Quarter 1 – April to June
- Q2 - Quarter 2 – July to September
- Q3 - Quarter 3 – October to December
- Q4 - Quarter 4 – January to March

Members are reminded that the costs supplied are budget allocations only and there is the possibility that a final scheme cost could change dependant on issues which may arise especially during detailed design and construction. The panel will be informed of any budget adjustments required.

## **BRENTWOOD LOCAL HIGHWAY PANEL REPORT 2 - SCHEMES AWAITING FUNDING LIST**

Following a review of the LHP process, the allocation of the LHP capital budget will be adjusted for the upcoming period. The Panel is requested to provide funding recommendations for a two-year Rolling Programme of works, for which a total funding of £337,200.00 has been agreed for the Brentwood LHP.

To assist the Panel in making the funding decisions, the Schemes Awaiting Funding List has now been divided into two distinct reports:

**Report 2A: Priority Schemes List** – This report details schemes that have completed the design phase and are ready for immediate implementation.

**Report 2B: Schemes Awaiting Funding List** – This report encompasses all other schemes currently awaiting funding.

Panel members are advised to prioritise funding recommendations from Report 2A in the first instance. Subsequently, any remaining budget can be allocated to schemes identified in Report 2B.

Upon receipt of the scheme recommendations, a comprehensive programme will be developed, outlining delivery timelines for each selected scheme. An update on this programme, covering both financial years, will be presented at the next LHP meeting.

It should be noted that due to the LHP no longer validating new scheme requests, Report 2-B exclusively contains schemes that have undergone prior validation.

Please note that as the Chairmen's Panel will not convene during the 2025/26 financial year, schemes previously awaiting funding decisions have now reverted to the LHP's Schemes Awaiting Funding List.

There are currently Schemes Awaiting Funding with an estimated cost of **£431,600** as shown in the summary below -

Ref.No.	Scheme Type	Scheme Costs	
		Priority Schemes List	Schemes Awaiting Funding List
1	Traffic Management	£75,200	£241,900
2	Walking	£0	£90,800
3	Cycling	£0	£0
4	Passenger Transport	£0	£15,600
5	Public Rights of Way	£0	£8,100
6	Total	£75,200	£356,400

All estimated scheme costs have been reviewed using the revised costs in the new LHP Members Guides and any necessary adjustments have been made.

Following changes to the LHP Scheme Criteria, some schemes have now been identified for the consideration of the Chairman's Panel.

On the Schemes Awaiting Funding List, the RAG column acknowledges the status of the scheme request as shown below:

RAG Status	Description of RAG status
G	The scheme has been validated as being feasible and is available for Panel consideration
A	The scheme has been commissioned for a feasibility study which needs completing before any Panel consideration
R	A scheme which is against policy or where there is no appropriate engineering solution

7	Ingatstone High Street B1002 - Traffic Calming	Request for HGV restrictions and Traffic Calming measures	Brentwood Rural	Ingatstone and Fryerning CP	Total Scheme	LBRE232026	£36,700	<p>After careful consideration of the options available, the recommendation for the panel is to consider option 2. This approach focuses on managing traffic priority through the implementation of road signs and markings in areas identified as high-risk for properties vulnerable to being struck by HGVs.</p> <p>It is important to note that a Full Ban on HGV traffic along Ingatstone High Street would not be advisable. Many businesses rely on this route for access, and restricting HGVs completely could hinder their operations.</p> <p>Engineers believe that Option 2 will provide a balanced solution, enhancing safety while still allowing essential business access.</p>	G
8	Nine Ashes Road, Stondon Massey, Ingatstone - Traffic management improvements	Option 3A as identified within the feasibility study for Signing and Lining	Brentwood Rural	Stondon Massey CP	Total Scheme	LBRE242006	£24,400	<p>Following the feasibility study commissioned for LBRE202022 Nine Ashes Road, findings and recommendations were given for option 3A this identified as the most viable solution which will include enhanced signing and lining and will be done as a total scheme.</p>	G
9	Fairfield Road, Brentwood - Signage	No through road sign	Brentwood South	Brentwood Unparished	Total Scheme	LBRE242010	£9,800	<p>Installing a "No Through Road" sign at the junction with The Mount is the recommended solution. This will help prevent vehicles from mistakenly turning left into The Mount when they intend to access St James Road.</p> <p>Clear signage can significantly reduce confusion for drivers and improve overall traffic flow and safety in the area.</p>	G
10	Crown Street, Brentwood High Street - Signage	Request for 'no entry' carriageway road markings	Brentwood South	Brentwood Unparished	Total Scheme	LBRE253002	£10,400	<p>Validation - The request to install 'No Entry' carriageway marking to accompany the vertical feature, is recommended. This will to prevent drivers from turning into the road and raise additional awareness.</p>	G

11	Widvale Road, Mountnessing - Signage	Request for advanced warning signage	Brentwood Rural	Mountnessing CP	Feasibility	LBRE232029	£7,500	Validation has recommend a feasibility study so a comprehensive review of the signage in conjunction with the Structures team input. This will help ensure the signage is compliant and provides the necessary information on approach to the bridge.	G
12	Roman Road, Mountnessing - Safety Review	Request for a safety review to be carried out to assess additional traffic calming measures.	Brentwood Rural	Mountnessing CP	Feasibility	LBRE242002	£9,700	Validation - To capture all of the concerns raised in the initial validation, it would be prudent to complete a feasibility study/road safety review throughout the Mountnessing Parish before further recommendations can be made.	G
13	Sandringham Road, Pilgrims Hatch - Parking Improvements	Introduction of vehicle parking spaces using some of the available green verge	Brentwood North	Brentwood Unparished	Design	LBRE212008	£7,800	Validation - Recommends a design only commission, this will include all detailed design work, a street lighting design, stats survey, and a road safety assessment.	G
14	Ongar Road, Pilgrims Hatch - Safety review	Request for a signage and safety review of the junction off Ongar Road and Doddinghurst Road, Brentwood	Brentwood North	Brentwood Unparished	Design	LBRE253001	£8,600	Validation - Recommends that the panel commission a design-only scheme, which will be accompanied by a comprehensive road safety assessment and route study. Upon completion of the study, a technical note outlining all findings, along with detailed recommendations for any identified measures can be provided. This report will also include associated costs for implementation.	G
15	Old Church Road, Mountnessing - Signage	Request for the width restriction signage to be replaced and for repairs to be carried out to the damaged kerb.	Brentwood Rural	Mountnessing CP	Design	LBRE232028	£9,000	To improve the visibility at this junction, the validation recommends realigning the kerbs to provide a better width for all vehicles and additional warning signage along Old Church Road in advance of the width restriction. A topographical survey would be required to ensure new carriageway levels and a review of the stats within the carriageway. Therefore, it is recommended that a Design Only Scheme is funded first to determine the extent and layout of the junction.	G

1	Middleton Hall Lane - Signage	Request for safety improvements	Brentwood	Brentwood South	Total Scheme	LBRE233002	£10,900	Given the existing 20s signage in place, the addition of a 'pedestrian crossing' sign on the grass verge as one approaches the crossing point from Shenfield Road could be considered. This enhancement could improve safety for pedestrians.	G
2	Hanging Hill Lane, Hutton - Footway improvements	Footway improvements - tactile paving Additional signage if recommended.	Brentwood Hutton	Brentwood Unparished	Total Scheme	LBRE243002	£16,700	The validation recommendation is to enhance pedestrian safety at this crossing point, by the bus stop by improving and updating the current footway and adding new tactile paving, along with cutting back overhanging vegetation to ensure a safer and more accessible environment for pedestrians using this crossing using daily. Additional signage was not recommended at this time as the current signage is deemed sufficient.	G
3	Chelmsford Road, Brentwood - Steps Safety Improvements	Upgrade to the steps (if required) and erect support railings to provide safer passage for elderly residents.	Brentwood North	Brentwood Unparished	Total Scheme	LBRE223023	£13,500	Validation suggests Key clamp galvanised tube handrails can installed.	G
4	High Street, Ingatestone - Zebra Crossing upgrade	Request to assess the current crossing to improve visibility and promote more driver awareness as there is not another safe crossing point along this road	Brentwood Rural	Ingatestone and Fryerning CP	Total Scheme	LBRE233004	£32,600	After discussions with the street lighting and design team, it has been determined that the posts at the crossing point are not combined posts and do not meet lighting guidance standards. Therefore, it is proposed that the crossing carpet and waiting areas will not have any additional illuminance to help highlight pedestrians through the crossing movement. To address this issue effectively, we recommend a design with new 6m combined posts. Additionally, refreshing the existing lining and signing would further enhance the visibility of the crossing.	G
