

Decision Notice

Street tree consultation

Notice was given under S115 of the Environment Act 2021 and 96A of the Highways Act 1980 that this tree is considered for removal (Notice ROC022749).

Following a 28-day consultation period, a number of objections were received in relation to the felling, which have been considered.

Despite this, Essex Highways will still require the tree to be felled for the following reasons:

- The tree is causing damage to adjacent properties through subsidence, which is a legal nuisance. The tree has been implicated through the relevant monitoring and investigation reports, which have all been fully assessed.
- The only remaining option is to fell the tree.

Date of decision notice: 29th of April 2025

The Arboricultural Team at Essex County Council.
